HUBLOT

MILLION \$ BIG BANG

ART OF FUSION

Chairman of HUBLOT'S ADMINISTRATIVE BOARD

"Can you believe how wonderful it will be to use the tradition and to combine this with our today's and tomorrow's visions, using all the means of today in order to transform, improve and develop it?"

This is the concept and the vision of HUBLOT watches and the Big Bang is the masterpiece of that fusion"

Jean-Claude Biver

Presidente AdF PR Internacional

"The Million \$ Big Bang is the cosmic fusion of diamonds and the earthly creation of an unique and singular man, Jean-Claude Biver, HUBLOT'S master and craftsman.

This fine watch was created for the unique and privileged customer who sees time eternal as DIAMONDS.

We cannot stop time but we can live with it. Live this work of art to the infinite..."

Rui Alvim de Faria

*The Invisible Visibility
of the “Million \$ Big Bang”*

*An incredible Big Bang whose strap
is also entirely set with Diamonds*

The Big Bang Million \$ 38 mm is an exceptional piece featuring a total of 880 baguette diamonds, adding up to more than 48 carats.

The setting is spirited away as if by magic, the diamonds sparkle in all their glory without a claw to be seen. They have been shaped by a mysterious hand that leaves no hint of the device used to secure them.

HUBLOT
GENÈVE

*More than 48 carats
880 Baguette diamonds*

This exceptional piece has enjoyed major successes since its presentation in Basel in April 2010, has been awarded "Best High Jewellery piece 2010" at Premier Middle East Watches awards, and nominated "Best High Jewellery piece 2010" at the Grand Prix d'Horlogerie of Geneva, Switzerland.

Due to the complexity of its production, it is a watch that is made by special order only.

MILLION \$ BIG BANG

Equipped with the mechanical self-winding caliber HUB1110, it is made from white gold individually crafted by master stone-setters using the complex "invisible set" technique which magnifies the brilliance of the diamonds.
